Dear President Herzog,

The faith community stands united against the despicable call by the International Criminal Court for arrest warrants of Israeli leaders overseeing the righteous war against the barbaric Hamas terrorists.

As Jews and Christians who revere the State of Israel for its unique role in the fulfillment of Biblical prophecy, we believe that this so-called "International Court" which obsessively attacks the Jewish state will ultimately fail in its designs. We therefore agree wholeheartedly with your description of the ICC announcement as "beyond outrageous and shows the extent to which the international judicial system is in danger of collapse."

There is absolutely no equivalence between the butchers of Gaza and the heroes of Israel, or between the evil Hamas killers and the soldiers of the IDF, the most moral army in the world. We stand with the accused leaders of Israel, and like Ruth proudly declare, "Your people are my people and your God is my God."

The ICC has made an utter mockery of justice, and is dangerously provoking the God of Israel who gave the Land of Israel to the People of Israel and who promised in Isaiah 1:27, "Zion will be delivered with justice, her penitent ones with righteousness."

The Keep God's Land coalition of more than 150 Jewish and Christian organizations will continue to defend the legitimacy of Israel's sovereignty in international law, established for well over 100 years, throughout the land of Israel, and her right to defeat enemies who seek her destruction.

We stand with Prime Minister Netanyahu, Defense Minister Yoav Gallant and the leaders of Israel's military as they prosecute this just war. We stand with you today as you are under siege by the terror supporting international community, and we will stand with you in glorious unity when Israel emerges in victory as a "light unto the nations."

SUBJECT: SIGN NOW: Letter against outrageous ICC threat to arrest Netanyahu

Shalom,

As you know the ICC has recommended warrants for the arrests of PM Netanyahu and Israel's Defense Minister Gallant, and we cannot be silent.

We are drafting two letters. One letter will be presented to American officials urging the Biden administration to reapply President Trump's Executive Order sanctioning members of the ICC who target Americans or U.S. allies. A second letter will be presented in person next week to Israeli President Herzog, expressing our outrage at the ICC and our solidarity with the targeted Israeli leaders.

[Please sign your name to both letters by clicking on this link.](#)

Thank you for standing with Israel,
