

June 5, 2024

Dear Prime Benjamin Netanyahu,

On behalf of Keep God's Land, a coalition representing over 150 Jewish and Christian organizations, we convey our grave concerns about the so-called "Phased Plan" announced by President Biden on the Jewish Sabbath last week.

In our judgment, such a cessation of hostilities would lead to the predictable result: compelling Israel's effective surrender to Hamas. That would, of course, be a completely unacceptable outcome for the Jewish State. It would also be a disaster for the United States.

Of particular concern is the fact that, while President Biden has publicly claimed that he has endorsed the *Israeli government's* phased plan, in fact, he has offered a version that differs from yours in several important respects. The most critical of these is the idea that there would be no resumption of hostilities after six weeks *as long as negotiations continue*. That is, of course, a formula for endless talks while Hamas rebuilds its capacity to attack your country and people.

In addition, Biden's Phase Two would require the removal of all Israeli forces from Gaza without any requirement for the elimination of Hamas as even a military threat, let alone a political one. Then, there is President Biden's statement to the effect that the adoption of this plan will bring a permanent end to hostilities *in Israel's north* which would assure the survival of Hezbollah.

Such conditions not only pose a material, and possibly existential danger to the Jewish State. We strongly believe they also are a threat to the United States of America. For these reasons, among others, we want you to know that the Biden administration's Phased Plan does not reflect the sentiment of an overwhelming majority of Americans.

As faith leaders we take seriously the Biblical mandate, "For Zion's sake I will not be silent." We urge you to stand fast in pursuing the complete destruction of Hamas and to defeat Iran's other proxies in Lebanon and the Red Sea and the regime that enables them in Tehran.

Sincerely,

Dean Michele Bachmann
